Frederick, Md. 21701

Dear Mr. Weisberg:

My brother and I enjoy reading your books very much.

I am writing to recommend an excellent book for you to read. It is about a C.I.A. conspiracy in the Kennedy assassination. It is mainly concerned with 3 tramps who were arrested in the railroad yard shortly after the shooting. They were questioned and released without being fingerprinted or even having their names taken. One glance at the photos immediately will bring to mind the Watergaters E. Howard Hunt and Frank Sturgis. The book has many other interesting coincidences to report. I hope you will at least get the book from a library and glance through it.

The book is: Coup d'état in America
by Michael Canfield and Alan J. Weberman
